## Professional Summary

Motivated and detail-oriented Computer Science graduate seeking an entry-level role in software development. Passionate about problem-solving, full-stack development, and leveraging technology for impactful solutions. Proficient in multiple programming languages and frameworks, with a strong foundation in web technologies and database management.

## Technical Skills

- Programming: Python, JavaScript, PHP
- Web Technologies: HTML, CSS, AngularJS
- Databases: MySQL
- Version Control: Git, GitHub
- Development: Full-Stack Development, Software Testing
- Problem-Solving & Algorithm Design

## Education

- MSc (Computer Science), PVP College, Pravaranagar (Pursuing)
- BSc (Computer Science), PVP College, Pravaranagar – SGPA: 9.18 (2024)
- HSC, B.S.K.P. Jr. College, Satral – 84% (2021)
- SSC, Smt. K.N.K.P.K.V. Satral – 84% (2019)

## Projects

### Portfolio Website

- Built a responsive portfolio using HTML5, CSS3, and JavaScript with smooth layouts, animations, and interactive features.
- Applied modern UI/UX design principles to deliver an engaging and intuitive user experience.
- Optimized performance and accessibility to ensure fast load times and cross-device compatibility.
- Implemented smooth scrolling navigation and a functional contact form for improved user interaction.

### Coaching Hub

- Developed an AngularJS-based coaching platform for managing courses, students, and online tests.
- Designed responsive user interfaces for course listings, student dashboards, and test modules.
- Implemented dynamic views and two-way data binding using AngularJS for seamless interactions.
- Focused on frontend architecture, UI consistency, and overall usability.
- Technologies: AngularJS, HTML, CSS, JavaScript.

### To-Do App

- Created a web-based task management application to help users organize and track daily activities.
- Implemented core features including adding, editing, deleting, and marking tasks as completed.
- Designed a responsive and intuitive interface for efficient task management across devices.
- Technologies: AngularJS, HTML, CSS, JavaScript.

## Certifications & Achievements

- HTML Certification – Strong foundation in web development.
- Python Certification – Proficiency in Python programming.
- Full-Stack Development Certification – Expertise in front-end and back-end technologies

## Soft Skills

- Effective Communication
- Team Collaboration & Leadership
- Critical Thinking & Problem-Solving
- Time Management & Adaptability

## Additional Information

- Open to relocation and flexible work environments.
- Passionate about continuous learning and software innovation.
- Interested in AI-driven development and scalable web applications.
